### COURSES

<b>Java Full Stack</b> Pentagon Space	Bangalore, India
<ul style="list-style-type: none"><li>Currently enrolled in a comprehensive Java Full Stack course, covered key technologies such as Core Java, JDBC connection, HTML, CSS, JavaScript, and SQL.</li><li>Gaining hands-on experience with full-stack development, focusing on both front-end and back-end technologies.</li><li>In the process of learning frameworks like Spring Boot and REST API development.</li><li>Preparing to start practical projects for real-world application of skills.</li></ul>	

### CERTIFICATES

• Java <a href="#">↗</a>	• HTML <a href="#">↗</a>	• CSS <a href="#">↗</a>
• JavaScript(Basics) <a href="#">↗</a>	• JavaScript(Intermediate) <a href="#">↗</a>	• SQL(Basics) <a href="#">↗</a>
• SQL(Intermediate) <a href="#">↗</a>		

### SKILLS

• Languages	: JAVA, JDBC, HTML, CSS, JAVASCRIPT, SERVLETS ,SQL
• Web Development	: HTML, CSS and JavaScript for frontend design.
• Tools	: Eclipse, VS Code, MySQL Workbench

### PROJECTS

#### Banking Management System [↗](#)

Developed a **Java-based banking application** that allows users to perform core banking operations such as login, balance check, fund transfers, deposits, and account management. Includes an **admin panel** to manage users and transactions. The system integrates with a **MySQL database** to store customer data securely.

**Technologies Used:** Java, MySQL, JDBC, Git

#### Hotel E-Menu [↗](#)

Designed a user-friendly Hotel E-Menu for a restorant using HTML and CSS. Focused on designing a attractive layout to display food items and their details.

#### Coin-Opearated Vending Machine

Designed an automated vending machine to dispense coffee, tea and milk by inserting a coin.Aimed at improving productivity,reducing process inventory, and enhancing safety by automating the vending process.
